Not a Day in Bed.

Gramling, S. C.—In a letter from Gramling, Mrs. Lola Walden says: "I was so weak before I began taking Cardui, that it tired me to walk just a little. Since taking it, I do all the housework for my family of nine, and have not been in bed a day. Cardui is the greatest remedy for women, on earth." Weak women need Cardui. It is the ideal women's tonic, because it is especially adapted for women's needs. It relieves backache, headache, dragging feelings, and other female misery. Try Cardui. A few doses will show you what it can do for you. It may be just what you want.—Advertisement.

Every Woman Wants

Paxtine
ANTISEPTIC POWDER
FOR PERSONAL HYGIENE
Dissolved in water for douches stops pelvic catarrh, ulceration and inflammation. Recommended by Lydia E. Pinkham Med. Co. for ten years. A healing wonder for nasal catarrh, sore throat and sore eyes. Economical. Has extraordinary cleaning and germicidal power. Sample Free. 25c. All druggists, or postpaid by mail. The Paxtine Medicine Company, Boston, Mass.

BETTER ROADS IN MICHIGAN

Improvement of Right Kind Making Profit of 125 Per Cent in Wayne County—Upkeep is Less.

Money spent in road improvement of the right kind is making a profit of 125 per cent a year in Wayne county, Michigan.

The county spent \$2,000,000 on construction and maintenance during the eight years from 1906 to 1914, inclusive, and in this period the assessed valuation of property in the county, outside of the city of Detroit, increased from \$62,707,000 to \$114,548,120, or 82.6 per cent.

Of this increase 35 per cent, or \$22,000,000, is credited to road improvement, because the assessed valuation of Detroit increased only 47.7 per cent.

The increase in county valuation above the rate of increase in the city was eleven times the cost of road work, or 1,000 per cent profit in eight years on the total investment in improved roads.

More than 125 miles of concrete road have been put down by the Wayne county commissioners since the county system was adopted in 1906 and the roads built with the \$2,000,000 bond issue are still in good condition and give every promise of more than outliving the bonds.

The commissioners state in their ninth annual report for last year that they never have had to take up and replace a single 25-foot section since

Good Roads in Michigan.

they have been developing this type of road, although some of the roads have been down more than seven years.

Every mile of durable roads laid is cutting down the cost of upkeep. Last year the commissioners had 45 miles more roadway to care for than the year before, yet they spent \$5,178 less for maintenance, notwithstanding they have supervision over 1,245 miles of other types of road, such as macadam and gravel, outside of incorporated cities and villages.

It is estimated that 90 per cent of the traffic in the county is carried on 20 per cent of the road mileage and that concrete construction should be continued until there are about 350 miles of such roads.

LOCATION IS OF IMPORTANCE

Most Farmers Would Rather Live Six Miles on Hard Road Than Three on Muddy One.

From a study of 650 farms in Johnson county of that state the Missouri experiment station concludes that location is more important than crop yield as a factor in land values. Here are the figures: Seventy-nine farms within two miles of market averaged in value \$78.90 per acre; 153 farms, two to four miles from market, \$70.20 per acre; 126 farms, four to six miles from market, \$60.90; 113 farms, six to eight miles from market, \$53.20; and 140 farms, over eight miles from market, averaged \$55.90 per acre. An unmentioned but important factor is condition of the road. Were these farms located on hard roads or on dirt roads inclined to be heavy in wet seasons? Most folk would rather live six miles out on a permanent hard road than only half as far on a muddy road. Let us have more light on this interesting question.—Farmers' Review.

Attention to New Road.

When a piece of permanent road is finished it is a big mistake to let it go without frequent attention. It begins at once to deteriorate through wear and weather, and if neglected it will be only a few years before it will require an expensive rebuilding. It is economy to employ a "road builder" whose duty it is to give the roads a weekly mending.

Makes Good Road Booster.

Institutional Treatment of Tuberculosis

means that the patient is given constant attention; that the treatment which is found to be best adapted to the case is rigidly adhered to; that a resident physician is at hand all of the time, studying the case and adapting the treatment to it; that nursing service is the best. All of these things mean improvement, greater comfort and possible recovery. Hazelwood is operated without profit by the Louisville Anti-Tuberculosis Association. Rates \$12.50 a week. Write for detailed information.
